PROFESSIONAL SUMMARY

Software Developer with 3 years of experience building scalable web applications using ASP.NET, C#, SQL Server, and React. Strong background in developing responsive user interfaces and robust backend systems, with expertise in REST API integration and end-to-end development in Agile environments. Experienced in full-stack development with C# and Java. Passionate about clean code, performance optimization, and building efficient, user-centric applications.

TECHNICAL SKILLS

Languages : C#, Java, HTML5, CSS3,J avaScript (ES6+)

Backend Technologies : ASP.NET MVC, ASP.NET Core, RESTful APIs, Entity Framework Core, LINQ, Spring Boot, Dependency Injection

Frontend Technologies : React.js, Redux / Context API, Bootstrap, Tailwind CSS, Framer-motion
Databases : MS SQL Server, MongoDB

Tools & Platforms : Git, GitHub, Azure, Jenkins, Postman, JIRA, Visual Studio Code

Other : Data Structures & Algorithms, OOP, REST API Design, Agile Methodologies

---

PROFESSIONAL EXPERIENCE

Associate Software Developer
UST Global – Trivandrum, India
Sep 2021 – Apr 2024

- Contributed to full-stack development of enterprise applications using C#, ASP.NET MVC, and Java (Spring Boot)
- Developed and integrated RESTful APIs to support frontend functionality and improve system interoperability
- Participated in modernization of legacy systems by redesigning modules with improved architecture and performance
- Collaborated with frontend teams to ensure seamless API integration and responsive user experience
- Worked in Agile/Scrum environment, contributing to sprint planning, code reviews, and continuous delivery
- Utilized Azure for deployment and Jenkins for CI/CD pipelines

---

PROJECTS

E-commerce Cake Selling Platform (CakeHut)

Technologies: ASP.NET MVC, C#, SQL Server, Entity Framework Core, Azure

- Developed a scalable full-stack e-commerce platform with RESTful APIs for products, users, cart, and orders
- Implemented business logic using LINQ, Repository Pattern & Dependency Injection
- Built features like wishlist, coupon system, and inventory management
- Integrated PayPal and implemented JWT authentication & role-based authorization
- Designed optimized SQL Server database and deployed on Azure

VillaVista – Villa Booking & Management System

Technologies: ASP.NET MVC, C#, EF Core, SQL Server, DI, Clean Architecture

- Developed a full-stack villa booking platform with RESTful APIs for villas, users, and bookings
- Implemented date-based availability logic to prevent double bookings
- Built backend logic using LINQ & Dependency Injection for scalability
- Designed optimized SQL Server database for villas, bookings, and users
- Developed admin features for villa management and booking control

Personal Portfolio Website

Technologies: React, Tailwind CSS, Framer Motion

- Designed and developed a responsive portfolio with modern UI/UX
- Implemented animations using Framer Motion
- Optimized performance and responsiveness across devices

Netflix Clone

Technologies: React.js, Firebase (Auth & Firestore)

- Built a responsive frontend with React and modular components
- Implemented Firebase Authentication & Firestore for backend-like data handling
- Managed routing and protected routes using React Router
- Structured scalable architecture with reusable components

OLX Clone

Technologies: React.js, Tailwind CSS, Firebase

- Developed a classified platform with real-time product listings
- Used Firebase Firestore as backend database for CRUD operations
- Implemented secure authentication using Firebase Auth
- Designed modern UI using Tailwind & Flowbite

EDUCATION

Master of Technology (M.Tech)
APJ Abdul Kalam Technological University
Sree Buddha College of Engineering, Pattoor | 2021

Bachelor of Technology (B.Tech)
APJ Abdul Kalam Technological University
Sree Buddha College of Engineering, Pattoor | 2019
